EXPERIENCE

DevOps / Front-End Engineer (Freelance)

Jobs Hunt

- 📅 Jan 2025 – Mar 2025 📍 Saudi Arabia – Remote
- **Multilingual** site (EN/FR/AR) optimized for performance and mobile.
 - **CI/CD with GitHub Actions**: staged deployments to Hostinger (FTP/SSH), **tag-based rollback**, basic scans.
 - Form security (**Formspree**), **News & Jobs** section; prepared **Adzuna API** integration.
 - **Technical documentation** (deployment runbooks) and knowledge transfer.

Cloud FinOps Project (GCP • GKE • Billing)

Target Energy Solutions

- 📅 Feb 2024 – Jul 2024 📍 Lac 2, Tunisia
- Built a **FinOps framework** on top of our running **GCP** infrastructure to deliver end-to-end **cost visibility & governance**: ingestion of Billing exports, Cloud Monitoring metrics (CPU/RAM/Network), and GKE workload meta-data (dev-cluster).
 - **Reconciliation & reporting**: produced weekly namespace/pod **usage vs. billed** reports; explained variances; maintained runbooks and executive dashboards.
 - **Budgets & alerts**: created per-namespace budgets and anomaly alerts; **Z-Score/Isolation Forest** for spikes; escalation workflows.
 - **Idle & underutilised** detection; enforced **requests/limits**; applied Active Assist recommendations; achieved **~10%** monthly cost reduction in test envs.
 - Cost allocation: **cost by namespace** (microservice per namespace) with tagging/labels; prepared inputs for showback.

DevOps Engineer

Target Energy Solutions

- 📅 Jul 2023 – Aug 2023 📍 Lac 2, Tunisia
- **Kubernetes** with **Helm** (dynamic values, reuse); baseline hardening.
 - **CI/CD** triggered by webhooks with **GitHub Actions** (pull-based model), improved release reliability.
 - **Code reviews** (Helm/pipelines), **tech watch** (GKE, Terraform).

Web Developer

Ooredoo

- 📅 Feb 2020 – Jun 2020 📍 Lac 2, Tunisia
- Delivery management app; real-time stock tracking **Reduced inventory mismatches by 25%**; store-availability feature **+15% transactions**.
