EXPERIENCE

Cloud Computing & FinOps Practitioner

Target Energy Solutions

📅 Feb 2024 – Jul 2024 📍 Lac 2, Tunisia

- Implemented FinOps practices to streamline cost management and optimize GCP infrastructure, which reduced Cloud GCP bills by 10%.
- Inform: Environment Setup and Initial Planning.
- Optimize: Focusing on improving Cloud resource usage and reducing costs.
- Operate: Continuous cloud operations, anomaly detection, and real-time alerts.

DevOps Engineer

Target Energy Solutions

📅 Jul 2023 – Aug 2023 📍 Lac 2, Tunisia

- Deployed applications on Kubernetes clusters using Helm charts, enabling dynamic variable injection for enhanced flexibility and scalability, with insights into Go language for advanced modifications.
- Enhanced automation skills by implementing CI/CD pipelines leveraging webhooks, GitHub Actions, and a pull-based delivery model, ensuring efficient and reliable application deployment.

Web Developer

Access Content Agency

📅 Jul 2022 – Aug 2022 📍 Lac 2, Tunisia

- Developed a feature enabling clients to connect to WhatsApp accounts, providing a chat experience with a WhatsApp-themed interface.

Web Developer

Ooredoo

📅 Feb 2020 – Jun 2020 📍 Lac 2, Tunisia

- Crafted a robust application for managing store deliveries; implemented real-time inventory tracking that decreased stock discrepancies by 25%, ensuring accurate order fulfillment and efficient supply chain operations.
- Developed an intuitive feature for Ooredoo sales personnel that facilitated real-time product availability checks at nearby stores, resulting in a significant increase in customer satisfaction and increased transaction frequency by 15%.

CERTIFICATIONS

- **FinOps Introduction** - FinOps Foundation, Jan 2025
- **AWS Cloud Practitioner Essentials** - Amazon Web Services, Jan 2024
- **Microsoft Azure Fundamentals (AZ-900)** - Microsoft, Dec 2023
- **Istio Service Mesh** - KodeKloud, Apr 2024

HOBBIES

- Skilled in PC and Electronics Repair (Hardware/Software)

EDUCATION

Engineering Diploma in Cloud Computing

ESPRIT

📅 2021 – 2024

Bachelor's Degree in Computer Science

ISSET Rades

📅 2016 – 2020

TECHNICAL SKILLS

Cloud Platforms

GCP AWS Microsoft Azure

FinOps

GCP Cost Management

DevOps

GitOps ArgoCD Jenkins

Containerization

GKE Kubernetes Docker
Helm Istio

Programming

Python Golang Angular
Spring Boot

Infrastructure as Code

Terraform Ansible

Monitoring

GCP Monitoring Prometheus
Grafana

Machine Learning & Time-series

Isolation Forest Z-score
Exponential Smoothing
